

Regulator Design Data

CAPACITY REQUIREMENTS

Dry Weather Conditions (Minimum)

- Desired Flow Through Regulating Gate (CFS)

- Upstream Elevation of Flow Surface at this Flow

- Downstream Elevation of Flow Surface at this Flow

Storm Conditions (Maximum)

- Desired Flow Through Regulating Gate

- Upstream Elevation of Flow Surface at this Flow

- Downstream Elevation of Flow Surface at this Flow

ADDITIONAL INFORMATION

Provide a sketch showing the sizes, elevations and relative positions of the conduit from which the regulator will be receiving the flow and the conduit to which the regulator will be discharging.

Print this form. Send the completed form along with the appropriate sketches to:
